

IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF NEW MEXICO

STATE OF NEW MEXICO, *ex rel.*
State Engineer

Plaintiff,

vs.

ROMAN ARAGON, *et al.*,

Defendants.

69cv07941-BB

RIO CHAMA STREAM SYSTEM

Section 5, Rio Gallina

**MOTION FOR APPROVAL OF FORM OF NOTICE
AND ORDERS TO SHOW CAUSE**

COMES NOW the plaintiff State of New Mexico, *ex rel.* State Engineer, and pursuant to the August 8, 2007 *Scheduling and Procedural Order for the Determination of Priority Dates and Irrigation Water Requirements in the Rio Gallina Section of the Rio Chama Stream System* (Doc. No. 8752), the States moves the Court to enter its order granting approval of the form of the notice and orders to show cause, attached hereto and described below, to be served on defendants with respect to the determination of priority dates and irrigation water requirements in Section 5 of the Rio Chama Stream System (Rio Gallina):

Exhibit A: Notice and Order to Show Cause to be served on individual subfile defendants. The defendants' names, addresses and other defendant specific information will be added to the individual notice and orders submitted to the Court.

Exhibit B: Notice and Order to Show Cause to be served on the community ditches in Section 5 in connection with the priority dates of private ditches in Section 5. The names and addresses of the

community ditches will be added to the individual notice and orders submitted to the Court.

Exhibit C: Notice and Order to Show Cause to be served on the United States of America.

Exhibit D: Notice and Order to Show Cause for publication.

Counsel for the United States of America, David W. Gehlert, and counsel for the Gallina-Capulin Acequia Association, Mary E. Humphrey, do not oppose the granting of this motion.

WHEREFORE, the plaintiff State of New Mexico requests the Court to enter its order granting approval of the form of the notice and orders to show cause attached hereto as Exhibits A through D.

Respectfully submitted,

/s/ Ed Newville
EDWARD G. NEWVILLE
Special Assistant Attorney General
Office of State Engineer
P.O. Box 25102
Santa Fe, NM 87504-5102
(505) 867-7444

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on the 6th day of September, 2007 I filed the foregoing electronically through the CM/ECF system which caused the parties on the electronic service list, as more fully set forth in the Notice of Electronic Filing, to be served via electronic mail.

/s/ Ed Newville

RIO CHAMA STREAM SYSTEM

Section 5, Rio Gallina

Subfile No: XXXX

NOTICE AND ORDER TO SHOW CAUSE

To: [name or names]
[address]
[address]

Subfile No. [XXXX]

Ditch or Acequia: [XXXX]

Priority Dates:

You are hereby notified that the Court has entered an order requiring you to file an objection with the Court if you disagree with the State's proposed determination of the priority date of your water right and ditch, or the priority date for any other community or private ditch in Section 5 (Rio Gallina). The priority dates proposed for these ditches are:

Vigiles Ditch	1876
Rincon Ditch	1876
Placitas Ditch	1876

Ex. A.

Sanchez-Maestas Ditch	1876
Cordova-Martinez Ditch	1878
Gonzales-Gurule Ditch	1878
Cecilia Ditch	1878
Valdez Ditch	1878
Emilio Jacquez Ditch	1902

These priority dates described above will apply to all individual irrigation water rights served by the ditches listed, unless individual water rights holders file objections.

Irrigation Water Requirements:

In addition, you are hereby notified that the Court has entered an order requiring you to file an objection with the Court if you disagree with the State's proposed determination of the irrigation water requirements for surface water irrigation use in Section 5 (Rio Gallina) as described below:

- a. The weighted consumptive irrigation requirement (CIR) is 1.38 acre-feet per acre per annum.
- b. The farm delivery requirement (FDR) is 3.46 acre-feet per acre per annum.
- c. The project diversion requirement (PDR) is 5.77 acre-feet per acre per annum.

The term "Consumptive Irrigation Requirement" ("CIR") refers to the quantity of water, expressed in acre-feet per acre per year, exclusive of effective precipitation, that is consumptively used by plants or is evaporated from the soil surface during one calendar year. The term "Farm Delivery Requirement" ("FDR") refers to the quantity of water expressed in acre-feet per acre per year, exclusive of effective precipitation, delivered to the farm headgate or which is diverted from a source of water which originates on the farm itself, such as a well or spring, necessary to satisfy the

consumptive irrigation requirements of crops grown on a farm in one calendar year. The “Project Diversion Requirement” (“PDR”) or off-farm diversion requirement is defined as the quantity of water, exclusive of effective precipitation, which is diverted from the stream or an off-farm source to satisfy the farm delivery requirement for one calendar year. The irrigation water requirements set forth above do not include diversion requirements associated with stockponds or other impoundments determined to have valid water rights in these proceedings.

If you agree with the priority dates and irrigation water requirements described above, you do not need to take any action, and the Court will enter an order that recognizes the elements of your water rights and the water rights of other surface water users in Section 5 as described above. If you disagree, you must follow the instructions below.

This will be your only opportunity in these proceedings to object to the determination of priority dates or irrigation water requirements in Section 5. Subsequent *inter se* proceedings in Section 5 will not include the opportunity to object to those determinations.

IT IS THEREFORE ORDERED THAT if you object to any of the priority dates stated above, or to the irrigation water requirements for surface water irrigation use in Section 5 as stated above, you must file the form entitled Objection and Response to Notice and Order to Show Cause with the Court, in person or by mail FOR RECEIPT NO LATER THAN DECEMBER 31, 2007:

United States District Court clerk
120 South Federal Place
Santa Fe, NM 87501

If you timely file an objection the Special Master will notify you of a mandatory scheduling and pretrial conference, where you will learn how objections will be heard by the Court. This will be your only opportunity to object to these elements of your water rights or any other water rights.

If you fail to timely object and to attend the scheduling and pretrial conference you may not raise objections in the future.

If you have any questions, call or write:

Edward G. Newville
Special Assistant Attorney General
Office of State Engineer
P.O. Box 25102
Santa Fe, NM 87504-5102
(505) 867-7444 phone

Section 5, Rio Gallina

NOTICE AND ORDER TO SHOW CAUSE

To: [community ditch]
[address]
[address]

You are hereby notified that the Court has entered an order requiring you to file an objection with the Court if you disagree with the State's proposed determination of the priority date for the private ditch described below:

Emilio Jacquez Ditch 1902

The priority date described above will apply to all individual irrigation water rights served by the ditch listed, unless you or other parties file objections.

If you agree with the priority date stated above, you do not need to take any action, and the Court will enter an order that recognizes the above priority date for this ditch. If you disagree, you must follow the instructions below.

In the absence of any objections, you will have no other opportunity in these proceedings to

Ex. B

object to the determination of the priority date for this ditch, and subsequent *inter se* proceedings in Section 5 will not include the opportunity to object to that determination.

IT IS THEREFORE ORDERED THAT if you object to the priority date for the private ditch stated above, you must file a written objection with the Court. You must file your objection, if any, with the Federal District Court by December 31, 2007. If you timely file an objection the Special Master will notify you of how to present your objections in Court.

RIO CHAMA STREAM SYSTEM

Section 5, Rio Gallina

NOTICE AND ORDER TO SHOW CAUSE

To: United State of America
David W. Gehlert, Esq.
United States Department of Justice
Environment and Natural Resources Section
1961 Stout Street, Floor 8
Denver, CO 80294

Priority Dates:

You are hereby notified that the Court has entered an order requiring you to file an objection with the Court if you disagree with the State's proposed determination of the priority dates for any of the community or private ditches in Section 5 (Rio Gallina), including the priority date of any individual irrigation water rights under those ditches, as described below:

Vigiles Ditch	1876
Rincon Ditch	1876
Placitas Ditch	1876

Ex. C

Sanchez-Maestas Ditch	1876
Cordova-Martinez Ditch	1878
Gonzales-Gurule Ditch	1878
Cecilia Ditch	1878
Valdez Ditch	1878
Emilio Jacquez Ditch	1902

The priority dates described will apply to all individual irrigation water rights served by the ditches listed, unless individual water rights holders file objections.

Irrigation Water Requirements:

In addition, you are hereby notified that the Court has entered an order requiring you to file an objection with the Court if you disagree with the State's proposed determination of the irrigation water requirements for surface water irrigation use in Section 5 (Rio Gallina) as described below:

- a. The weighted consumptive irrigation requirement (CIR) is 1.38 acre-feet per acre per annum.
- b. The farm delivery requirement (FDR) is 3.46 acre-feet per acre per annum.
- c. The project diversion requirement (PDR) is 5.77 acre-feet per acre per annum.

The term "Consumptive Irrigation Requirement" ("CIR") refers to the quantity of water, expressed in acre-feet per acre per year, exclusive of effective precipitation, that is consumptively used by plants or is evaporated from the soil surface during one calendar year. The term "Farm Delivery Requirement" ("FDR") refers to the quantity of water expressed in acre-feet per acre per year, exclusive of effective precipitation, delivered to the farm headgate or which is diverted from a source of water which originates on the farm itself, such as a well or spring, necessary to satisfy the

consumptive irrigation requirements of crops grown on a farm in one calendar year. The “Project Diversion Requirement” (“PDR”) or off-farm diversion requirement is defined as the quantity of water, exclusive of effective precipitation, which is diverted from the stream or an off-farm source to satisfy the farm delivery requirement for one calendar year. The irrigation water requirements set forth above do not include diversion requirements associated with stockponds or other impoundments determined to have valid water rights in these proceedings.

If you agree with the priority dates and irrigation water requirements described above, you do not need to take any action, and the Court will enter an order that recognizes the elements of the water rights for surface water irrigation use in Section 5 as described above. If you disagree, you must follow the instructions below.

In the absence of any objections, you will have no other opportunity in these proceedings to object to the determination of priority dates or irrigation water requirements in Section 5, and subsequent *inter se* proceedings in Section 5 will not include the opportunity to object to those determinations.

Notwithstanding the above, the United States shall have no obligation to raise an objection to the determination of priority dates and irrigation water requirements described above in its capacity as trustee for the benefit of Ohkay Owingeh (Pueblo of San Juan) or any other Indian nation. Any such objection may be raised during stream system wide *inter se* proceedings or other applicable *inter se* proceedings as may be ordered by the Court.

IT IS THEREFORE ORDERED THAT if you object to any of the priority dates stated above, or to the irrigation water requirements for surface water irrigation use in Section 5 as stated above, you must file a written objection with the Court. You must file your objection, if any, with the

Federal District Court by December 31, 2007. If you timely file an objection the Special Master will notify you of how to present your objections in Court.

You are hereby notified that the Court has entered an order requiring you to file an objection with the Court if you disagree with the State's proposed determination of the priority date of your water right and ditch, or the priority dates for any other community or private ditch in Section 5 (Rio Gallina) as described above.

In addition, you are hereby notified that the Court has entered an order requiring you to file an objection with the Court if you disagree with the State's proposed determination of the irrigation water requirements for surface water irrigation use in Section 5 (Rio Gallina) as described below:

- a. The weighted consumptive irrigation requirement (CIR) is 1.38 acre-feet per acre per annum.
- b. The farm delivery requirement (FDR) is 3.46 acre-feet per acre per annum.
- c. The project diversion requirement (PDR) is 5.77 acre-feet per acre per annum.

The term "Consumptive Irrigation Requirement" ("CIR") refers to the quantity of water, expressed in acre-feet per acre per year, exclusive of effective precipitation, that is consumptively used by plants or is evaporated from the soil surface during one calendar year. The term "Farm Delivery Requirement" ("FDR") refers to the quantity of water expressed in acre-feet per acre per year, exclusive of effective precipitation, delivered to the farm headgate or which is diverted from a source of water which originates on the farm itself, such as a well or spring, necessary to satisfy the consumptive irrigation requirements of crops grown on a farm in one calendar year. The "Project Diversion Requirement" ("PDR") or off-farm diversion requirement is defined as the quantity of water, exclusive of effective precipitation, which is diverted from the stream or an off-farm source to satisfy the farm delivery requirement for one calendar year. The irrigation water requirements set forth above do not include diversion requirements associated with stockponds or other impoundments determined to have valid water rights in these proceedings.

If you agree with the priority dates and irrigation water requirements described above, you do not need to take any action, and the Court will enter an order that recognizes the elements of your water rights and the water rights of other surface water users in Section 5 as described above. If you

disagree, you must follow the instructions below.

This will be your only opportunity in these proceedings to object to the determination of priority dates or irrigation water requirements in Section 5. Subsequent *inter se* proceedings in Section 5 will not include the opportunity to object to those determinations.

IT IS THEREFORE ORDERED THAT if you object to any of the priority dates stated above, or to the irrigation water requirements for surface water irrigation use in Section 5 as stated above, you must file your objection with the Court, in person or by mail FOR RECEIPT NO LATER THAN DECEMBER 31, 2007:

United States District Court clerk
120 South Federal Place
Santa Fe, NM 87501

If you timely file an objection the Special Master will notify you of a mandatory scheduling and pretrial conference, where you will learn how objections will be heard by the Court. This will be your only opportunity to object to these elements of your water rights or any other water rights. If you fail to timely object and to attend the scheduling and pretrial conference you may not raise objections in the future.
